1. Introduction

This time our group's project is about a website to collect comments in schools, the website includes functions such as collecting comments from staff (students, support...) documents, Comment, like or dislike. Accompanied by the supervision of QAM and QAC.

Role:

- **Nguyen Duc Dung** (Scrum Master, Product Owner, Tester).
- **Tran Phan Vinh Hoang** (Programmer, Database Designer, Information Architect).
- **Nguyen Thanh Nhan** (Backend Developer, Programmer).
- **Phan Dinh Dat** (Backend Developer, Web Designer).
- **Huynh Ngoc Hai Dang** (Technical Team Leader, Tester).
- **Le Dinh Huy** (Frontend Developer, Tester).
- **Tran Van Quy** (Frontend Developer, Web Designer).
- **Nguyen Ngoc Linh** (Frontend Developer, Web Designer).

2. Conduct Evaluation

First, I will evaluate the product and the model that the team has decided the right model to adopt is Scrum. About products include Design of Interface, functions and database.

2.1 Design front-end

However, the internet interface is simple, our team made sure that the interface is still beautiful, the format is clear and the definition is harmonious and best due to the fact that we gave the layout team a lot of time to try Try and be dedicated, do not make mistakes and solve to perfect. But not everything is perfect, in the beginning, the code is difficult and the interface is full of bugs, the battle between the interface blocks is not

balanced after many fixes, along with the help from the relaxing members should now be At present, the internet has reached 90%. complete.

2.2 Functions

2.2.1 Role

Admin

- Read all Staff account
- Create closure dates for the academic year
- Statistical analysis

QAM

- Add(unique)delete (have not been used) additional categories
- Download all ideas in the ZIP file

QAC

- Manage and encourage employees to contribute ideas
- Export a CSV file of ideas
- Update/delete ideas.

Staff

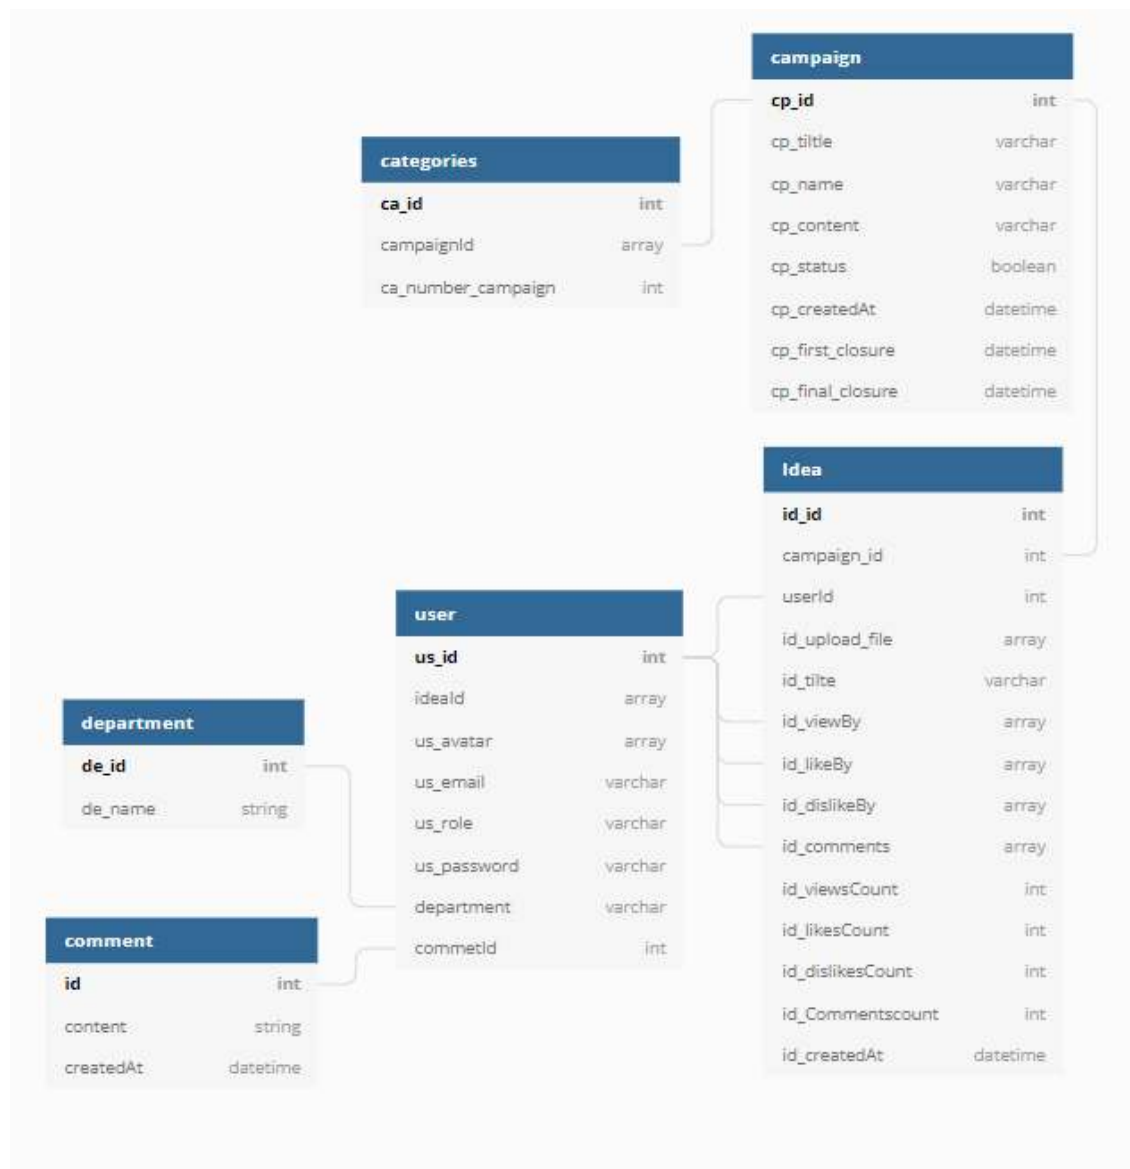

- Submit one or more ideas

- Agree to the terms
- Attach supporting document file
- View ideas and rate them (once only)

2.3 Non-functional

- The site is handled fast loading.
- The website's appearance is in harmony with the reasonable layout.
- Fast data processing speed.

2.4 Database

3. Evaluation Team members

Nguyen Duc Dung: this is the leader of our team, he is the leader of the team, always has ideas to solve the project's problems well in the group, he is knowledgeable and also a leader. and enthusiastic support. love for each member of the group.

Tran Phan Vinh Hoang: A hardworking member, always trying to fix code errors, he has very good coding knowledge, helping to solve many errors while others encounter

Huynh Ngoc Hai Dang: In addition to working diligently, he is also a very hard-working person, he often helps people in difficult times, discovers many mistakes in the project, and helps people to correct cures. Always arrive at meetings on time and do a great job.

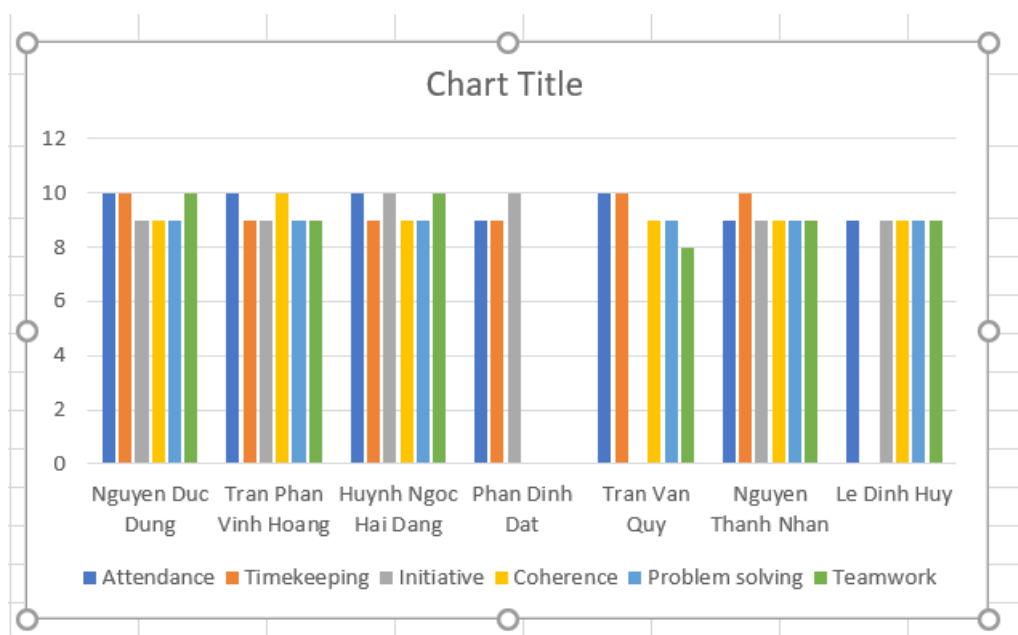

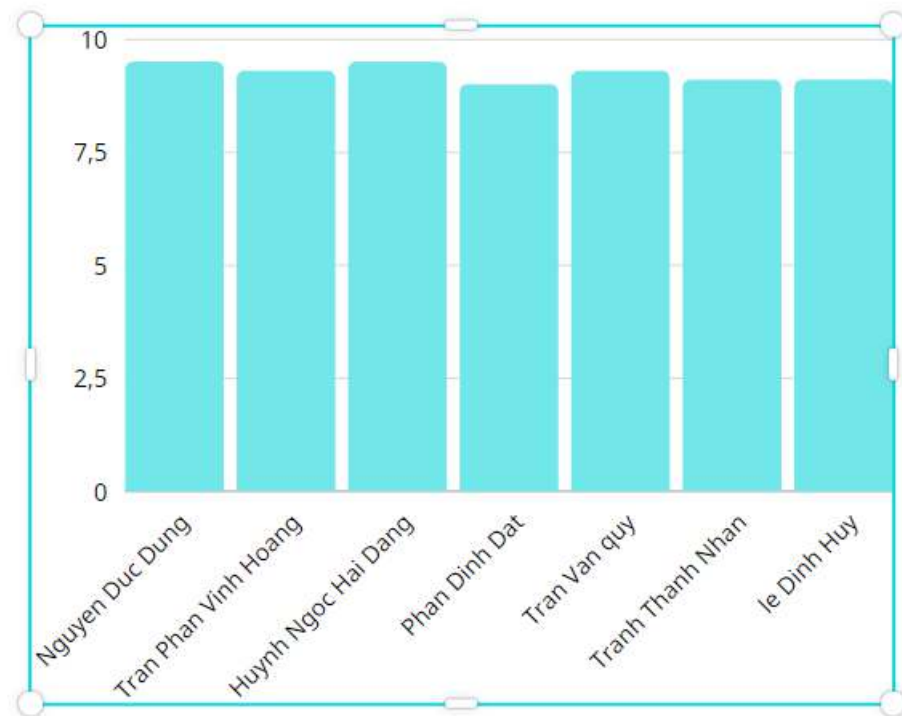

Phan Dinh Dat: Being diligent in all things of the group, although at one point he was infected with the covid epidemic, he still tried to online group meetings to grasp the situation of the group. His efforts are respected by everyone.

Tran Van Quy: He always has new ideas for the project, always enthusiastically supports everyone in the work of the project, he will clarify and explain to everyone once the project has a problem that is not understood. clear. Always complete all your tasks and arrive on time for team meetings.

Nguyen Thanh Nhan: he always has the knowledge to help the team be effective, in addition to the work on the project, he also knows many good tools to help the teamwork more efficiently, be present on time for the team meeting. and do well in assigned tasks.

Le Dinh Huy: is a hard-working member who has good ideas for the project, in addition, he is also a person with a sense of humor that helps the team reduce stress when doing homework. Comply with the assigned work on time.

	Nguyen Duc Dung	Tran Phan Vinh Hoang	Huynh Ngoc Hai Dang	Phan Dinh Dat	Tran Van Quy	Nguyen Thanh Nhan	Le Dinh Huy
Attendance	10	10	10	9	10	9	9
Timekeeping	10	9	9	9	10	10	9.5
Initiative	9	9	10	10	9.5	9	9
Coherence	9	10	9	8.5	9	9	9
Problem solving	9	9	9	8.5	9	9	9
Teamwork	10	9	10	8.5	8	9	9
Total	9.5	9.3	9.5	9	9.3	9.1	9.1

According to the scoreboard, 3 members Nguyen Duc Dung, Tran Phan Vinh Hoang, and Huynh Ngoc Hai Dang were the ones with the highest scores because they did a great job leading the team to complete the set targets. They always have a plan for everything. They know the connection but group members together.

4. Self-assessment

In this group session, I was fortunate to meet good, responsible and trusting team members, I was assigned the role of Web design by the team members. Regarding the work, it can be assessed that I have completed 90% of the group assigned to me and do not depend on the trust of the group. Although my work is only a small part, I always make effort as well as try to accompany everyone to complete the assigned tasks well. I consider myself not good in the group, I admit that I still have many shortcomings in interface design, I am always ready to listen to everyone's suggestions and always respond positively, and always learn more stuff from members. . . . Taking on the role of a Web designer, I know that after working on the project, I learned a lot. Sometimes incompetence is shown while the design is distorted and adjusted, I just think that I should always try to fix and learn so as not to burden the team.

5. Conclusion

This is also the first time I experience group projects. Through this experience, I have more experience to help me in other projects in the future, it also helps me realize my weaknesses, so that I can try to improve myself more in the future. After being exposed to the Scum model, I understand why it is chosen a lot for group projects.
